Homecare in Germany 2018

## Home ventilation devices and masks

### Homecare in Germany 2018

In Germany around **6 Million** people suffer from disorders that cause breathing interruptions or respiratory arrest. The most prevalent disorders are obstructive sleep apnea (**OSA**) and chronic obstructive pulmonary disease (**COPD**). In this study DTO Research Medical Markets analyses the German market for ventilation devices and masks\* in the homecare segment 2018.

The study addresses the following subjects:

- Epidemiology of sleep apnea – OSA & CSA (prevalence, number of patients, prognoses)
- Epidemiology of chronic obstructive pulmonary disease – COPD (prevalence, number of patients, prognoses)
- Important manufacturers of ventilation devices and masks (locations in Germany, parent companies)
- Important distributors of ventilation devices and masks (locations in Germany, traded goods by manufacturer)
- Market volume (sales 2018)
- Competitive landscape (market-leading manufacturers, market shares)

**Upon request, the market dossier can be purchased. Please send your inquiry to Philipp Rosar, Senior Project Manager:**
